Senator Norm Coleman Visits Solar Skies™ in Starbuck, MN

Starbuck, MN - Senator Norm Coleman visited Starbuck based, Solar Skies™ Mfg., LLC management on December 4, 2008 to show support for the manufacturer's initiatives in solar thermal heating systems. While Senator Coleman champions various green projects on renewable energy, using our own resources; he made the visit to Solar Skies™ to see the different techniques manufacturer's of renewable energy are using, effectiveness of these techniques, what the needs are of these manufacturers, and what he can do to help these manufacturers progress in their efforts.

Solar Skies™ Mfg., LLC is a leading manufacturer of solar thermal collectors for both residential and commercial use. The solar panels allow the consumer to use the sun's energy as a resource for heating. Solar thermal heating is one of the most efficient, most cost-effective, and the most environmentally friendly renewable energy resources for today and into the future.

Solar Skies™ offers multiple series of solar thermal collectors, in a wide range of sizes for both residential and commercial use. For more information, contact Solar Skies™ at 800 Industrial Park, Hwy 28 W., Starbuck, MN 56381; Telephone: 320-239-4805, Email: deb@solarskies.com or visit www.solarskies.com.
